Organizational Announcement

Please join me in welcoming Chris Lussier as our Director, Quality & Regulatory.

Chris brings 15 years of industry experience. He began his orthopedic career in 2000 with Medtronic's Sofamore-Danek Division working in a variety of regulatory and quality engineering roles. Chris went on to join Sandvik Medical Solutions in 2008 as a Principle Quality Engineer and Program Manager - Spine. Chris was recruited to NuVasive where he has been working since 2011 as Senior Manager, Quality Engineering. While at NuVasive, Chris was recognized with the "Coalition Award" in 2015 and 2016 for his results to simplify operations while improving efficiency & profitability.

Chris has an impressive educational background that includes a Bachelor of Science Degree in Mechanical Engineering from the University of Memphis, a Master of Business Administration from Union University and a Purdue University Lean Sigma Green Belt. He also holds certifications from the American Society for Quality (ASQ) as a Quality Engineer (CQE) and Quality Manager/Organizational Excellence (CMQ/OE).

Courtney Deer, Quality Specialist will report to Chris. Although Chris will work from the Memphis office, Courtney will continue to serve as our Quality resource in Chicago.

Eric Dremel
President
